

A **controlled substance prescription** is generally a drug that is regulated by the government. The prescription should be obtained from the office by the guardian/parent of the patient. Once the patient is 18 years of age and becomes a legal adult, Suburban Pediatric Associates needs to have permission to release the controlled substance prescription to another individual other than the patient.

I, \_\_\_\_\_, Date of Birth: \_\_\_\_\_ give permission for the following individuals to pick up my controlled substance medication prescription.
